Jerry,

This email requires no action on your part. It is merely Neutron Product advising us of a request they are making to MDE to allow them to do modify the court order that is in place to allow NP to do some work and make some money.

Rich

Hello Rich,

I trust you are well.

In an effort to keep you up to date, I have attached a copy of a request which we recently sent to MDE. I think it is pretty self-explanatory. I am optimistic that they will work with us on this, but we will see.

We also have a proposal in to MDE to partially refinance the white house property (instead of selling it) and to put that money into the decommissioning fund. In addition, we would propose to make regular quarterly payments into the decommissioning fund and they would authorize us to refuel the irradiators. We expect to get a response fairly soon on that as well. Again, I am cautiously optimistic.

I am not asking you to do anything with this information, just trying to keep you reasonably well informed. If you have any questions, please let me know.

Bill
